User Experience Developer - Angular

Pune, Mumbai, Chennai, Bengaluru, Delhi

YUJ Designs' has enabled organisations to gain competitive advantage by providing user experience (UX) consulting services. Our design consulting creates a direct impact on customers' product success, top line and bottom line. http://www.yujdesigns.com/portfolio/

Ideal candidate gets to work in a highly collaborative, fast-paced, result-driven environment. Applicants must have substantial experience to implement a complete user interface in the form of a mobile and desktop web app, with a focus on performance. Your main duties will include creating modules and components and coupling them together into a functional app.

Responsibilities
- Delivering a complete front end application
- Ensuring high performance on mobile and desktop
- Writing tested, idiomatic, and documented JavaScript, HTML and CSS
- Coordinating the workflow between the ux designer, visual designer and yourself
- Cooperating with the back-end developer in the process of building the RESTful API
- Communicating with external web services.

Must have
- 4-5 years of Experience, 2+ years' experience working with Angular framework
- Professional, precise communication skills
- Deep knowledge of AngularJS practices and commonly used modules based on extensive work experience
- Understanding of front-end technologies, such as JavaScript, jQuery, HTML5, CSS3 and Bootstrap3,4
- Strong proficiency in JavaScript, including DOM manipulation and the JavaScript object model
- Creating self-contained, reusable, and testable modules and components
- Ensuring a clear dependency chain, in regard to the app logic as well as the file system
- Thorough understanding of the responsibilities of the platform, database, API, caching layer, proxies, and other web services used in the system
- Validating user actions on the client side and providing responsive feedback
- Writing non-blocking code, and resorting to advanced techniques such as multi-threading, when needed
- Creating custom, general use modules and components which extend the elements and modules of core AngularJS

Resume
- Send it to talent@yujdesigns.com as part of your application.
