

## Sr. Angular Developer | Job Location: Remote

### You are:

Angular Developer eager to manage the client side of our service. Your primary focus will be on implementing a complete user interface in the form of a mobile and desktop web app, with a strong focus on performance. You will work closely with the back-end developer and communicate with the API using standard methods.

### You will:

- Report to the Team Lead
- Deliver a front-end application ensuring high performance on mobile and desktop and comply with UI design guidelines
- Validate user actions on the client side and provide responsive feedback
- Coordinate and collaborate with the graphic designers and the HTML developer
- Write tested, idiomatic, and documented JavaScript, HTML and CSS
- Work with the back-end developers in the process of consuming/integrating RESTful API
- Develop integrations to external web services
- Create custom, general use modules and components which extend the elements and modules of core Angular
- Write non-blocking code and resort to advanced techniques such as multi-threading when required

### You have:

- Proficiency in Angular 2.0 and above versions like Typescript and ES6/7
- A good understanding of Angular practices and commonly used modules and component architectures
- The skills to create self-contained, reusable, and testable modules and components
- Extensive knowledge of LESS and SASS for providing performant and pixel-perfect visual designs
- Adequate knowledge about unit testing frameworks like Karma and JASMINE for automated unit testing
- Working knowledge of JavaScript and HTML5
- Working knowledge of package managers like npm and Postman for API testing
- Working knowledge of CI/CD pipeline like Jenkins/MSTS, its setup and configuration management tools like GIT
- Knowledge of SEO solutions for single-page apps would be a plus
- Excellent communication skills

## You can look forward to:

- Growth opportunities to excel in a forward-thinking organization
- Competitive compensation package including insurance, gratuity, and PF
- Paid leaves along with leaves for COVID recovery
- Flexibility to work from home and strike a work-life balance
- Recognition and awards for your contributions
- Training and internal learning programs
- A fun environment where everything from birthdays to work anniversaries are celebrated

## When you apply:

- We will call you to set up an interview if your application matches the profile
- The first interview would be conducted after the initial screening to understand what excites you about this job and the opportunity to work with YUJ designs
- You can expect an online assignment to help us gauge your potential
- The second interview (only if your performance is satisfactory) will involve detailed discussion about your role in the organization

## Meet the tribe

We are YUJ Designs. A global UX design studio with a crazy community of doers and believers. A Red Dot winner, we have been consistently delivering world-class experiences globally. We take pride in our people and culture. We have been extremely meticulous about our choices and follow stringent recruitment practices.
