

Senior User Experience Designer

Pune

Ideal candidate gets to work in a high collaboration, fast-paced and result-driven environment. Applicants must have substantial experience informing designs through critical design thinking, rationalising for B2B or B2C systems, websites, mobile devices, and handheld.

Job Profile

- Execute and drive multiple UXD projects by diagnosing business and user needs.
- Apply all pieces of User Centered Design methodology and processes.
- Plan and conduct primary and secondary research.
- Convert user insights into concept designs that are not only compelling but are contrasting ideas looking at business challenges from varied angles.
- Design and manage all interaction design activities including visual design co-ordination with global designers.
- Present design decisions to the stakeholders that are backed up by strong experience design principles and rationale.
- Coordinate with technology teams to bring designs to a pixel perfect reality.
- Manage communication at all levels and be responsible for project deliverables with quality and on time.

Must have

- Demonstrate excellent interpersonal communication, management, negotiation, presentation and client relations skills.
- Ability to trigger business discussions with program managers, CTOs, CIOs, CEOs
- Be a clear and effective presenter in order to influence important design decisions and maintain credibility.
- Deeper eagerness for observing human behaviour and synthesising insights into design.
- Hands-on experience of all User Centred Design processes.
- Expert level knowledge of User Centered Design methodology, information architecture, navigation models and interaction design principles.
- Experience designing for various devices and systems (mobile, handheld, TV, display systems).
- Be organised and show excellent time management skills and be highly detail oriented.
- Ability to manage own time in an efficient manner while receiving strategic and tactical direction from project stakeholders.

If you wish to apply

- Attach your latest resume (pdf only) and share portfolio URL or PDF.
- Portfolio should not just have wireframes and UI mock-ups but tell a story of how design resolved business problem through step by step UCD process (include all critical UCD artefacts).
