

Head of Tech

Job Location –Remote

Job Profile

This role bridges the creative and technical aspects of project delivery-- supervising a team of Front-end Developers. They integrate front-end and server-side technologies to merge the technical architecture with creative designs and art direction. To achieve this integrated approach, the qualified candidate must have a fundamental understanding of the creative aesthetic while implementing technically across a variety of platforms and frameworks, as well as participate in business development, project planning and knowledge leadership

- Responsible for architecting and defining the Front-end framework to solve complex designs and interactions that reflect the creative and art direction provide
- Responsible for creation of all coded Front-end deliverables
- Responsible for mentorship and guidance to technical team members in all project activities on multiple small to medium sized projects or one large project
- Able to shift between a creative and a technical focus depending on the project need and/or the type of project
- Identifies new opportunities for their client. Develops innovative ideas for account
- Participates in developing supporting proposal materials for projects
- Participates in scoping and planning work
- Write technical documentation (admin guides), white papers, presentations, contributes to determining internal processes
- Lead and Manage a large team of Front-end Developers and client developers
- Be a thought leader in the Front-end technologies and space.
- Lead recruiting of new Front-end employees

- At least 14+ years of experience hand-coding HTML(5), CSS(3) and other UI technologies
- Deep understanding of object oriented JavaScript, solid programming background
- Experience in back-end frameworks used to develop dynamic web pages
- Demonstrated ability to accurately estimate and scope development work
- Demonstrated ability to work closely with the client as a trusted advisor
- Strong attention to detail
- Strong written & oral communication as well as presentation skills
- Proven Team management skills

If you wish to apply

- Attach your latest resume (pdf only) and share portfolio URL or PDF.
- Portfolio should not just have wireframes and UI mock-ups but tell a story of how design resolved business problem through step by step UCD process (include all critical UCD artefacts).
