Ideal candidate get to work in a highly collaborative, fast-paced environment. Applicants must have substantial experience informing designs through critical design thinking, rationalising for B2B or B2C systems, websites, mobile devices, and handheld.

Job Profile
• Anchor and execute UXD projects independently with the client (multiple stakeholders) by diagnosing business and user needs
• Partner with user researchers to drive research to find user needs
• Create and present compelling design concepts as part of UX strategy
• Work as a design lead to manage all interaction design activities including visual design co-ordination with global designers
• Present design decisions to the stakeholders that are backed up by strong usability principles and rationale
• Team up with development folks to ensure your design gets translated well as a final product
• Manage communication at all levels and be responsible for project deliverables with quality and on time.

Must have
• Deeper eagerness for observing human behaviour and synthesising insights into design.
• Hands-on experience of all User Centre Design processes
• Proven ability to plan and conduct complex B2B UX engagements
• Experience designing for various devices and systems (mobile, handheld, TV, display systems)
• Demonstrate excellent interpersonal communication, management, negotiation, presentation and client relations skills

- Be a clear and effective presenter in order to influence important design decisions and maintain credibility.
- Be organized and show excellent time management skills and be highly detail oriented.
- They must be able to manage their own time in an efficient manner while receiving strategic and tactical direction from project stakeholders.
- Minimum 7+ years of solid industry experience

Resume and Portfolio

- Portfolio should be a PDF presentation that showcases top 4-5 of your TOP project samples only. Send it to talent@yujdesigns.com as part of your application.
- Variety across industry and Interface types would be an advantage. A panel will review the presentation for your understanding of the business problem, design thinking prowess and approach to providing good User Experience design solution.
